Chapter 1

Overview

These are just some chess notes.

There are a number of different themes that can be used for embedded boards, the options for which are listed below:

```
theme: blue, blue2, blue3, canvas, wood, wood2, wood3, maple, green, marble, brown, leather, grey
```

There are also coloration themes:

```
bg: light, dark
```

Here is an example of what should be added after the html link of a study to style the board and start at initial position

```
?bg=dark&theme=metal#0
```

And here is an example and embedded chess study.
